Let Us Help You Become Comfortable With Your First Dance.

We can guide you or your wedding party to learn enough dancing to do an elegant and simple dance.

Our patient, friendly staff will work with you at a pace that is comfortable for you. They will teach you a simple, elegant routine to the song that you have personally selected.

It is best to start with plenty of time. Your first dance can be very simple or as elegant as you allow time for. We recommend at least one month before the wedding, two months is better. This will give more time in case you feel you need it.

Don't worry, if you left your lessons to the last minute, we can still help you. We will be able to give you some simple things to do that will make your first dance feel successful.

We Can Help You In One Of These Three Ways.
